SKILLS

- Risk Analytics
- Lean Six Sigma Methodologies
- Visualization & Dashboarding
- Excel-Python Automation & Reporting
- Predictive Analytics
- Data Quality Analytics
- Process Enhancement
- Marketing Analytics
- Algorithm Trading - Quantitative Finance (Python, Pine Script)

TECH STACK

ML & Analytics Frameworks/Tools:

- R Studio
- Anaconda IDE (Jupyter Notebook / Spyder)
- VS Code
- Microsoft SSMS
- SAS University Edition
- MS Excel
- AWS
- GCP

Programming Languages:

- Python
- R Programming
- SQL
- SAS

BI Tools:

- Tableau Professional Desktop
- Tableau Prep & Server
- Power BI
- SAP BO

Control Systems:

- JIRA
- Confluence
- Sharepoint
- Git & Github

EDUCATION

MBA - **Distinction(75.75%)** – [2016]
B.E. CS - **Distinction(70%)** – [2013]
H.S.C. - **Distinction(90%)** – [2009]
S.S.C. - **Distinction(88.76%)** – [2007]

WORK EXPERIENCE (4 YEARS)

Career Break

[October 2021 – Present]

- Took a career break during the COVID-19 second wave to care for my father through his sudden terminal cancer diagnosis, which deepened my resilience and risk-taking ability while mitigating challenging life situations.
- During this time, I pursued my passion for coding by studying financial engineering and **quantitative systematic trading** in capital markets.
- Developed a fully automated **proprietary trading system** for swing investments in Python and Power BI, showcased on my website.

Business Analyst & BI Developer - Research Ops Metrics

Barclays PLC

[Feb 2020 - Sep 2021]

- Developed an **Excel-Python automation system** (Python,AWS), reducing report generation time by 80% thereby facilitating real-time human independent reporting.
- Designed a **Six Sigma-based Data Quality Dashboard** for real-time monitoring of credit trade data, identifying and mitigating daily inconsistencies.
- Built a **Recommender System** that increased customer engagement by 45% through targeted marketing campaigns.

BI Analyst - Risk Analytics

Edelweiss Tokio Life Insurance Company

[Apr 2018 - Jan 2020]

- Led the development of an automated **fraud detection model**, improving client-agent data integrity and reducing fraudulent transactions by 15%.
- Designed an **agent login risk tool**, identifying suspicious login activities and reducing fraud risks across geography.
- Developed a **Surrender Churn Analysis Dashboard** to track and identify fraudulent agent and customer behaviors, mitigating financial risks from policy twisting and non-compliance.
- Developed a **POSP fraud detection model**, achieving 100% monthly success in identifying unauthorized policy sales as per IRDAI violations.

Data Analyst - Marketing Analytics

Datamatics - HDFC Bank (Client)

[Jan 2018 - Mar 2018]

- **Target HNW prospects (Cross-Selling):** Used data segmentation and text mining to identify high-net-worth prospects, achieving a 27% sales conversion rate by optimizing marketing strategies.

Management Trainee - Business Operations

Motilal Oswal Financial Services Ltd(AHFCL)

[May 2016 - Aug 2016]

- **Optimized receivables management**, improving cash flow and reducing overdue payments.
- Utilized **Six Sigma methodologies(DMAIC,RCA)** to streamline processes and improve efficiency.
- **Automated** business operations, cutting processing time from 5 hours to 5 minutes.(using Excel Macros)

CERTIFICATIONS
